SPOTLIGHT - Lorraine Tinniswood is a leather artisan who began working in leather in 1976, joining an Adult Education Class, at Stafford Heights Primary School, to make a leather shoulder bag. She (with a friend), went on to Commedia 'del Arte Masks using the traditional Italian techniques. After both began having hand problems, Lorraine changed to the lighter weight Kangaroo Leathers which she now uses to create items from key rings to Objects of Art. The moulded bowls grew from the mask techniques, and various leathers that are used.
